PARTNERS FIVE TALENTS MARKETING INC | ZORN AI

What agencies tell me before we start

"Every rebuild turns into a four-week scramble between our designer, a freelancer and the client's IT guy."

Builds eat the margin

"We sell the ads. The landing pages, the forms and the tracking are where the campaign quietly breaks."

The wiring nobody owns

"The client wants an AI thing. We can sell the plan. Who actually builds it and keeps it running?"

The build behind the plan

How it works

FREE FOR PARTNERS · ONE BUSINESS DAY

Send me a prospect's URL.

Before you pitch a rebuild, I run the search snapshot on the prospect's site in your agency's name. You walk in with a measurement, not an opinion.

- A score out of 100 and the five things costing them jobs
- What the fix costs at partner rate
- A one-pager with your logo on it
- The prospect never hears from me

PARTNER TERMS · FLAT · CAD · TWO-DAY SCOPE
